This old PIONEER alfalfa plant was taken from a field of PIONEER Chilean alfalfa just before cutting for seed. This field was seeded in 1884 and is now 46 years old, and is still yielding excellent crops of dairy hay and a crop of PIONEER Chilean alfalfa seed each year.

A great many Alfalfa growers now regard our PIONEER Chilean Alfalfa seed as the best on the market.

Last year, Alfalfa growers purchased and sowed more than twelve thousand bags of our PIONEER Chilean seed; sufficient to seed approximately 60,000 acres of heavy-yielding, long-lived Alfalfa.

During the past season, one retail dealer made a special effort to sell PIONEER Chilean Alfalfa seed, by soliciting the Alfalfa growers in his vicinity, and sold 672 bags. It paid the dealer handsomely to push PIONEER brand, and every one of his customers will be more prosperous for having sown the heavy yielding, long-lived PIONEER Chilean instead of a lower yielding, shorter-lived variety.

It will pay you to recommend PIONEER Brand.  
It will pay your customer to sow it.
